自动送料帽檐机

FULL AUTOMATIC FEEDING CAP (HAT) -VISOR SEWING MACHINE

传统工艺用平车加挡板车，对工人技术要求高，车出来的线迹不平行，且不剪线；自动化设备一人至少可操作二台，放料方便，车缝线迹标准一致，自动收放料，无需手工去拿。

Traditional production process use lockstitch sewing machine and other machine to finish this working. it need high technology worker ,the line tracks isn't parallel, couldn't be automatic trimmed. Now one worker can operate 2 sets of automatic equipment.,easy to put the fabric , the line tracks is exactly same, automatic collected the finished products' piles, no need worker do it.
